

Manual for the CMC 3way-comparison tool

Mai 2010

The CMC 3way-comparison tool is available for free and can be downloaded from <http://www.cmc-home.eu>

This CMC 3way-comparison tool allows you to view side-by-side of summaries of data submitted by up to three production houses.

You can install your own Logo. Open „Select print logo...“, activate „Custom icon and select your file.

Up to three cost-estimates can be viewed side-by-side. The breakdown will be detailed into 15 groups and 44 subgroups.

Upon request the filmproduction (s) will sent by e-mail the „Export file“, a „cmx“-file of the summary page of their CMC-Commercial Movie Calculator-cost-estimate.

Then you open the CMC 3way-comparison tool, go to „cost-estimate 1“ and import the file sent to you. Then import the next file into „cost-estimate 2“, etc.

Next to the „cost-estimate no.“ The name of the filmproduction, project, title, cost-estimate version number and date are listed.

The file can be saved and printed.

In case you have any questions, do not hesitate to contact me.
